# [Institute of Electrical and Electronics Engineer]

History of organization – IEEE was founded in January, 1 1963. Prior to his founding, its predecessor was founded in May 13, 1884 and was known as AIEE.

IEEE was formed by the merger of two organizations the American Institutes of Electrical Engineers (AIEE) and the Institute of Radio Engineers (founded in 1912).

Purpose – The purpose of IEEE is to advance technological innovation and excellence for the benefit of humanity.

Core values are

- trust (trusted and unbiased source of technical information)
- Growth and nurturing (encouraging education as a fundamental activity of engineers, scientist and technologies at all levels and at all times)
- Global community building (cultivating active, vibrant and honest exchange among cross-disciplinary and technical professionals)
- Partnership (promoting a culture of respect for the employee and volunteer valuing contribution at all levels of the organization)
- Service to humanity: Leveraging science technology and engineer to benefits human welfare, promoting public awareness
- Integrity in action (fostering a professional climate in which engineers and scientist continue to be respected for their exemplary ethical behavior)

# [Institute of Electrical and Electronics Engineer]

Number of Members – over 530, 000 members, of which 224, 000 are student members

2025 or 2026 Annual Conference location –

IEEE hold various conference spanning multiple disciplines some noteworthy conference in 2026 are

- IEEE PES General Meeting in Montreal (July 19 – July 23)
- IEEE IAS Annual Meeting in Vancouver (Oct 4 – Oct 8)
- ICR 2026 in Vienna (May)

# Some Conference in 2026

- **IEEE Power & Energy Society (PES) General Meeting:** July 19–23, 2026 – Montréal, Canada.
- **IEEE Industry Applications Society (IAS) Annual Meeting:** Oct. 4–8, 2026 – Vancouver, Canada.
- **IEEE International Conference on Robotics and Automation (ICRA):** May 2026 – Vienna, Austria.
- **IEEE World Congress on Computational Intelligence (WCCI):** June 21–26, 2026 – Maastricht, the Netherlands.
- **IEEE/PES Transmission and Distribution Conference (T&D):** May 4–7, 2026 – Chicago, IL, USA.
- **IEEE Engineering in Medicine and Biology Society (EMBC):** July 26–30, 2026 – Toronto, Canada.
- **IEEE Energy Conversion Congress and Exposition (ECCE):** Vancouver, Canada.
- **IEEE International Conference on Data Engineering (ICDE):** May 4–8, 2026 – Montreal, Canada.
- **IECON 2026 (Annual Conference of the IEEE Industrial Electronics Society):** Doha, Qatar.
- **CDC 2026 (IEEE Conference on Decision and Control):** Honolulu, Hawaii, USA.
- **IEEE Smart World Congress:** Sept 7-11, 2026 – Rende, Italy

Are there opportunities in the organization for networking and professional development?

There are ample of opportunities for students and professionals to network.

There are a variety of conference held exclusively for members to discuss groundbreaking research in the member field.

IEEE membership provides extensive, structured opportunities for networking with over 400,000 technology professionals, researchers, and students globally. Networking in IEEE is facilitated through local geographic units, specialized technical societies, and dedicated digital platforms (Some example include Local Sections, Chapters, and Affinity Groups, Technical Societies and Councils, IEEE Collabratec, Conferences and Events, Mentoring Programs, Volunteer Opportunities, MemberNet Directory, Women in Engineering (WIE) and Young Professionals)

# Are there free student memberships

If so, do you think it is worth joining

Yes, having a membership is worth it, there are opportunities for free or heavily subsidized IEEE membership for students, primarily offered through specific society-level programs, promotional codes, or regional subsidies.

IEEE also provide access to historical or groundbreaking research that pioneered the modern technological world in different sector.
